

## **Christina Boughton**

*5th & 6th Grade Math Support | Upper Science Teacher*

Christina Boughton is a dedicated educator with a passion for positively impacting the lives of young adults. With a Bachelor's of Science in Psychology from the University of South Carolina, Christina has built a diverse career in education, aquatics, and behavioral support. She currently serves as a Math Support Teacher for 5th and 6th graders and an Upper Science Teacher, working to foster a love of learning and encourage academic growth in her students.

Christina's past experience spans several roles, including Aquatics Director, Learning and Behavior Support Staff, Substitute Teacher, and Family-Based Therapy Counselor. She has also taught in alternative education settings, where she focused on providing individualized support

to help students succeed. In addition to her teaching roles, Christina is a certified Lifeguard Instructor with the American Red Cross, where she is committed to teaching water safety and lifesaving skills.

Passionate about making a difference, Christina is deeply committed to helping students thrive academically and personally. Whether in the classroom or the pool, she brings a nurturing, supportive approach to everything she does, empowering others to reach their full potential.
